KIDS NEED AT LEAST 5 SERVINGS OF FRUITS AND VEGETABLES EVERY DAY FOR GOOD HEALTH

Fruits and vegetables help kids grow, develop, and do well in school and sports. Everyone in your family should eat plenty of whole grains, fruits and vegetables and foods that are low in saturated fat and cholesterol. A healthy diet helps adults lessen the chances of developing serious health problems, like cancer, heart disease, stroke, or diabetes. Start your kids off right – teach them to eat 5 A Day!
